Single point of entry that provides free (for Montgomery County residents) developmental screenings and assessments for children aged 2 years 10 months up through the spring prior to age eligibility for kindergarten. This office is also the single point of entry for families moving into the county whose preschool children have been previously identified and have a current Individualized Educational Program (IEP). Families with concerns about their preschooler's development, who are nonresidents of Montgomery County with a child attending a MSDE approved preschool within Montgomery County, may also contact the MCPS Child Find Office.

Montgomery County Government does not endorse or assume responsibility for any product, method, service or treatment listed in this resource directory that is not a County program.

www.louriecenter.com

Specialize in the assessment, treatment, and prevention of emotional, behavioral and developmental problems in infants and young children. The Early Head Start Program provides comprehensive, year-round, child and family development services to low-income families with children, prenatal to three years old. The Therapeutic Nursery Program (TNP) is a specialized preschool that addresses the needs of young children three to five years of age with emotional and behavioral problems that may interfere with success in a regular preschool or day care setting. The Parent-Child Clinical Services Program is a licensed outpatient mental health clinic that offers a comprehensive approach to the early identification, treatment and prevention of emotional, behavioral and developmental problems in infants, young children and their families. The Lourie Center School serves children from nursery (age four) through grade five who have complex emotional and behavioral disabilities and multiple disabilities which interferes with a student's ability to learn in a traditional school setting.
